# Fluid Hand

Context: The player's hand should match the number of cards they START with.
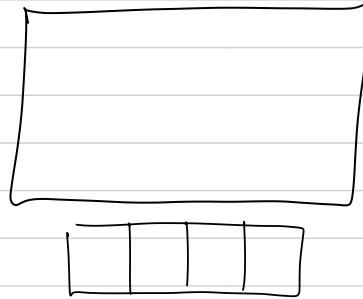

$\Longrightarrow$

If a level requires n cards, the hand should look like:

$n = 3$

$n = 4$

$n = 1$

Notice that the hand is always centered

Important: When the player plays a card, the size does NOT change, there is simply an empty cell.

Ex: $n = 4$

empty
